State Tax Registration Guide

Understand when, why, and how to register for state-level taxes.

What Is State Tax Registration?

State tax registration is the process of enrolling your business with your state's revenue or taxation department so you can properly

Common State Taxes That May Require Registration

- Sales and use tax
- Employer withholding tax
- State income or franchise tax
- Excise or specialty industry taxes

When You Typically Need to Register

- You sell taxable goods or services in the state
- You hire employees in the state
- You have a physical presence or nexus in the state
- State law requires registration based on your activity

General Registration Process

1. Identify applicable state taxes based on your business activity
2. Visit your state's department of revenue website
3. Complete the online registration application
4. Receive state tax account numbers or permits
5. Record filing frequencies and deadlines

Proper tax registration protects your business from penalties, surprises, and shutdowns.
